

PATTEN CYCLES BULLET PROOF FRAMES

300 MAGNUM CHOPPER SPEC SHEET

DESCRIPTION

Super strong custom chopper frame manufactured by the same people who make parts for military jets and space flight applications. This awesome frame is built utilizing modular construction and aerospace inspection techniques.

The frames motor, transmission mount and uprights are made from 1018 billet steel. The tubing used for the frame is 1010 steel seamless .120 wall D.O.M.

All frames are TIG welded using aerospace grade equipment. Unique oval down tube and back bone give the frame greater rigidity and a custom appearance. All frames come complete with swing arm, oil tank, oil tank mounting brackets, pivot bolts, axle, axle hardware, axle covers and fork stops

Neck rake	42 degrees
Down tube stretch	Up 6.5 inches
Back bone stretch	Out 10 inches
Tire size	280-300
Options	Radius or straight down tube. Optional rake - stretch dimensions coming soon at no additional cost.
Engine Size	Up to a 147 C.I.
